Best practice HTML

When creating digital content, make sure to consider the following issues.

Fundamentals

- ✓ Validate and test your work.
- ✓ Follow the W3C standards.

Page structure

- ✓ Use landmarks to structure a page.
- ✓ Create the document outline.

HTML

- ✓ Use semantic and native HTML where possible.
- ✓ Use proper labels and descriptions.

Design

- ✓ Sufficient contrast between text color and background.
- ✓ Information should not be conveyed with color alone.

<header>

<nav>

<main>

Dev

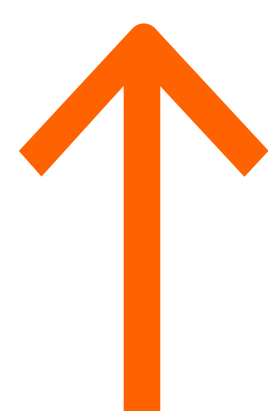

Create a heading structure.
